

DENSO OXYGEN & AIR/FUEL SENSORS

IT'S ALL ABOUT ACCURATE READINGS

With sensors, it's all about accurate readings. And that means maximum protection from contamination of the sensitive elements. Every DENSO First Time Fit® oxygen and A/F sensor is checked for high temperature signal output, air tightness, continuity and heat resistance. No other sensor brand is OE on more cars manufactured around the world and DENSO sensors are two times more resistant to contaminant poisoning when tested against leading competitors.

FEATURES & BENEFITS:

- Maximizes engine performance and fuel efficiency while reducing harmful emissions.
- Maintains proper unit temperature for quicker response times and protects the ceramic element against silicone and lead poisoning.
- Aluminum-Oxide trap layer keeps silicone and lead outside the ceramic element through DENSO's exclusive design, preventing damage to the platinum electrode.
- Stainless Steel Housing resists corrosion and contamination with a rugged, watertight body.
- Porous PTFE filter allows atmospheric oxygen to enter the sensor without permitting water or engine contaminants to seep into the casing.
- Reduces fuel consumption and maximizes catalytic converter life.

APPLICATION COVERAGE

- Part Numbers: 1415 - Direct Fit: 1396 and Universal: 19
- 99.9% application coverage through MY2016 by UIO
- 100% sales coverage
- Over 35,000 applications

THE DENSO DIFFERENCE

- First Time Fit philosophy
- OE Technology adapted for the aftermarket
- Brand name synonymous with quality
- Lowest return rate in the industry

DENSO MAKES:

Acura	Daihatsu	Honda	KIA	Nissan	Scion
Asuna	Dodge	Hummer	Land Rover	Oldsmobile	Sterling
Buick	Eagle	Hyundai	Lexus	Plymouth	Subaru
Cadillac	Ford	Isuzu	Mazda	Pontiac	Suzuki
Chevrolet	GEO	Jaguar	Mercury	SAAB	Toyota
Chrysler	GMC	Jeep	Mitsubishi	Saturn	Volvo
